-----

Norway to move forward. OSLO, Norway, JanuSLB (NYSE: SLB) today announced that SLB Capturi, in collaboration with Aker Solutions, has been awarded an ...

impact assessment of zero emission building processes in Oslo6. Additional insights regarding energy supply constraints are provided by Sweco in a mapping of power ...

The waste-to-energy plant at Klemetsrud is currently responsible for 17 per cent of the city's emissions, and is the biggest single emitter of CO2 in Oslo. From 2026, up to 400,000 tonnes of ...

Alongside Heidelberg Materials' cement plant and Hafslund Celsio's waste-to-energy facility in Oslo, Northern Lights has signed CO2 transport and storage deals with Yara ...

What is a containerized energy storage system? NEXTG POWER's Containerized Energy Storage System is a complete, self-contained battery solution for a large-scale energy storage. ...

The Northern Lights project launches Norway's first underwater CO2 storage facility, an asset for reducing industrial emissions.

With dozens of massive new lithium-ion battery factories planned or already under construction in Europe, Panasonic and Equinor are ...

The Off-Grid Revolution: Why Oslo? When Norway announced its off-grid solar storage initiative in 2022, critics chuckled. "Solar power in Oslo? That's like opening a ...

Today 82 TWh or 38 % of Norway's stationary energy use is used for heat and electricity for private, public and commercial buildings. The demand of cooling ...

Today the most frequently used energy storage technology for heat and cold is Underground Thermal Energy Storage (UTES) systems combined with Ground-Source Heat ...

Oslo's Klemetsrud project secures financing in significant boost for waste-to-energy Plans for the world's first full-scale commercial carbon capture and storage (CCS) operation at a waste-to ...

To continue the electrification of these sectors,Oslo needs better energy planning and managementto ensure that the city has sufficient grid capacity and alternative energy sources ...

Norsk Hydro, a Norwegian aluminum and renewable energy company, is planning a 84 GWh pumped storage project in Luster ...

ge Reduce energy consumption Figure 1. Oslo's climate goals To support a broader transition to zero emissions across the entire construction an. building sector by 2030, ...

Norwegian battery cell producer Morrow Batteries has opened Europe's first lithium iron phosphate (LFP) gigafactory with an annual ...
