Who is developing solar-plus-storage project?

The solar-plus-storage project is being developed by Terra Solar Philippines, a company set up specifically for it as a subsidiary of independent power producer SP New Energy Corporation, which in turn is a subsidiary of developer Solar Philippines.

What is a GW power plant in the Philippines?

Strategically located in the Philippines, the comprehensive development is designed to harness substantial renewable energy resources, boasting a total planned capacity of 3.5 gigawatts (GW) of photovoltaic (PV) power and 4.5 gigawatt-hours (GWh) of energy storage.

What is Phase 1 of PV & energy storage?

The Phase I project, which was recently contracted, encompasses 1.4 GW of PV capacity and 3.3 GWh of energy storage capacity. Construction activities are scheduled to commence in November 2024, with the facility expected to enter commercial operation by 2026.

Will Terra become the largest integrated photovoltaic power station in Southeast Asia?

This project marks a significant milestone as Terra is poised to become the largest integrated photovoltaic and energy storage power station in Southeast Asia.

Where does MGen invest in a LNG facility?

Recently, MGEN has invested a 40.2% stake in an integrated LNG facility in Batangas, Philippines. Across its portfolio, MGEN has a combined net sellable capacity of 4,953 MW from traditional and renewable sources as of March 2025.

Why is snap event important for the Philippines?

Today's event is not only important for SNAP but for the Philippines, enabling the country to achieve its goal towards 30% renewable by 2030. From Norway's side, we are committed to contributing so that you can achieve a green energy future.

On November 18, a consortium comprising China Energy International Engineering (Energy China) and the Guangdong Electric Power ...

Energy storage is stepping into the spotlight of the country's green transition, with more companies making

bold investments to unlock its game-changing potential.

Fluence has delivered nearly 600MW of BESS in the Philippines to date, including this project for SMC Global Power. Image: Fluence. A ...

SN Aboitiz Power Group (SNAP) has signed an engineering, procurement, and construction (EPC) contract with GEDI China Energy to expand the battery energy storage ...

Image: Solar Media Energy-Storage.News Premium reports back from an in-depth discussion of battery storage in the Philippines with panellists ...

The project is currently developed by Terra Solar Philippines, a subsidiary of SP New Energy Corp. (SPNEC), and will eventually feature 3.5 ...

Pasig City, Philippines -- 22 April 2025 -- Meralco PowerGen Corporation (MGEN), through its affiliate Terra Solar Philippines Inc. (MTerra ...

In the Philippines, Fluence has brought into commercial operation the first project in an order totalling nearly half a gigawatt, for vertically ...

MANILA - The House of Representatives on Wednesday approved on third and final reading a measure that would promote safe nuclear energy use with the creation of the ...

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging ...

Representatives from the local governments of Agusan del Norte attended the groundbreaking event (pictured). Image: Aboitiz Power. ...

AboitizPower, through its subsidiary Therma Marine Inc. (TMI), has broken ground on its second hybrid Battery Energy Storage System (BESS) in ...

SN Aboitiz Power Group (SNAP), a joint venture between Scatec and AboitizPower, has made the final investment decision for the 20 MW ...

The Philippines makes history by launching the world's largest solar and battery project, advancing renewable energy efforts.

With the Philippines racing toward energy security, the government and private sector are shifting into high gear to power the nation ...
