Who installs sigenergy hybrid inverters & energy storage solutions in New Zealand?

Planet Electrical is proud to install Sigenergy hybrid inverters and energy storage solutions across New Zealand. With their advanced technology, reliability, and efficiency, Sigenergy is an excellent choice for anyone looking to reduce energy costs, maximize solar power, and achieve energy independence.

Who is taspac energy?

Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. 100% Kiwi owned, Taspac was founded in 2014 with a very simple goal - to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support.

What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.

What is the best solar battery storage model?

Arguably one of the best solar battery storage models in this criteria is the Sonnen Hybrid 9.53. Containing both a high-efficiency solar inverter and battery system, the Hybrid 9.53 is able to effectively store and convert solar energy for use in any sized home, forgoing the need for an additional inverter to be installed.

Who installs smart systems in Southland & Otago?

In Southland and Otago, our official installation partner is NES--a leader in electrical and energy solutions across the lower South Island. With NES handling the install, you can expect smart systems delivered with local knowledge, reliability, and unmatched service.
